Freedom & Slavery for Afric-Americans. To the Editor of The Tribune:

Figures cannot be charged with fanaticism Like the everlasting hills, they give cold, silen evidence, unmoved by the clouds and shadows of whatever present may surround them. Let us see what they say of the

VITAL STATISTICS of the Slaves of the South of the South and of the Free Blacks of the North. There are one or two preliminary remarks necessary to enable us to judge of this matter: they relate to what statists call the "disturbing influences." It is generally assumed that the rigor of the Northern winter is more destructive to the Afric-American constitution than the milder influence of the Southern clime. How much should be allowed for this, I am at a loss to say: by the late census, however, the free colored population of the Northern and Southern States have nearly an equal per centage above 36 years of age not more than 1, 12 per cent being in favor of the South. But this small per centage is more than balanced by the facility with which colored men and women turn white at the North. The keen and practised eyes of Southern men can instantly detect the most remote admixture of African blood; and interest and pride urge them to exercise a rigid conservatism. But here at the North, the boundary line is less distinct: the colored white has merely to change his place of abode, cut his old associates, and courtesy will do the rest-he is a white. There is not a path in literature or science in our State, in which I could not point out very distinguished colored men. Of one hundred boys who attended with me the N. Y. African Free School in 1826-7, I could name six now livingall white.

There is another 'disturbing influence." You have probably heard of the great Anglo-Saxon race, the Irish people and the Bersekirs. You have also heard of their indomitable energy which overwhelms all opposing obstacles-and races. During the last thirty years, the Northern States have been the scene of a silent struggle. The combatants have been, and are, on the one hand the great Anglo-Saxon race, and the Irish people and the Bersekirs (I have borrowed the name from Mr. Emerson) having in their possession 'the arts of war and peace,' their numbers swelled by an immigration of 23,000 per year, which has fallen into rank and file by naturalization and enfranchising laws-on the other hand, are the free blacks, taught to believe themselves naturally inferior, barely admitted to common-school instruction, shut out from the temples of higher literature, and taunted with ignorance, barred from the jury bench and driven from what are called churches, yet branded with impiety. This has been no trifling conflict. The Indian race have perished in a like encounter. It has severely tried the vitality of the free blacks, whilst the slaves of the South have had no such battle to fight in their struggle for bread. This should show the per centage of longevity in favor of the slaves, other things being equal.

The Texan slave-trade, or migration, consisted chiefly of slaves under 36. The voluntary migration to Canada of the runaway slaves (about 10,000) has also consisted, chiefly of a class of persons under 36 years of age. Both of these disturbing influences would throw the balance of longevity largely in favor of the slaves of the South; for the medium ages being diminished, the extremes should be greater.

Longevity is an admitted test of relative condition. Take two classes of persons, equal in other respects, and place them in like condition, their longevity will be equal: place the same classes of persons in different condition, and that condition which yields less longevity will be the worse condition. By the census of 1840, it appears that there are of

FREE COLORED IN THE FREE STATES, Aged 36 and under 55—16.12 per ct. Females. 15.62 per ct.

55 and under 100- 6.5 per ct. 7.1 per ct. SLAVES.

Aged 36 and under 55-11.65 per ct. 11.22 per ct. 55 and under 100- 4.11 per ct. 4. per ct. THAT IS TO SAY :

Free colored of 36 and under 100-22.68 per cent. of 36 and under 100-15.49 per cent. Slaves

Here we find that whilst 22.68 per cent. of the free black population of the North live beyond 36 years of age, only 15.49 per cent. of the slaves of the South pass that period of life; showing a difference of 7.19 per cent. in favor of the longevity, i. e. of the condition of the free blacks. And as the only difference between these classes of population is, that the one is free and the other enslaved, it follows that slavery has actually destroyed at the very least 7.19 per cent. of the slave population. Had the slaves been in no worse condition than the free blacks of the North, instead of numbering only 2,487,355 in June, 1840, they would have numbered 2,666,440, the difference, 179.085, having been MURDERED by the system of slavery. What mockery it is for men to talk of the kindness of masters in taking care of aged slaves, when Death has relieved them of so large a share of the burden! Have not the Northern States a right, in view of this awful fact, to call upon the South to emancipate her slaves so that she may "do no murder?" If a hundred thousand dollars, sunk in the mire of repudiation, is sufficient cause for great and pious men to whine about, what rush of sympathy is sufficiently rapid, what language is temperate, which pleads for the loss of a hundred thousand human lives, cut off in their prime, and blasted from all usefulness? This is no accidental result of a single census: by reference to Professor Tucker's very able work on the "Progress of population, &c." (Press of Hunt's Merch. Mag. N. Y.) it will be seen that in the census of 1820 and of 1830, the same per centage of the slave population, only 15 per cent. live beyond the age of 36 years, whilst the free black population has steadily improved its

cent. to 22.68 per cent. Here, then, is evidence from unprejudiced witnesses, that the Free Blacks of the North are not worse off than the Slaves of the South; and that the former have gradually improved in longevity; that is, in the comforts of life, since their emancipation. As a portion of these comforts must be food and clothing, it is a fair inference that they are not worse fed, nor clothed than are the Slaves.

per centage beyond that period of life from 17 per

There is corroborative evidence in the annals of this city. Dr. Niles states that in 1824, 5 and 6, the deaths among the Free Black population of this city was 1 in 18.88. By the City Inspector's Report for 1840, I find that the deaths of the same class were only 1 in 32.16. Slavery was abolished, or terminated, in New-York in 1827; and a large proportion of those who died in 1825, &c. were Slaves recently emancipated. These facts prove that within fifteen years after it became a Free State, a portion of the Free Black population of New-York have improved the ratio of their mortality 13.28 per cent .- a fact without parallel in the history of any People.

It is a prevalent opinion that Emancipation has made the Free blacks deaf, dumb, blind. idiots, insane, &c. &c. The Southern Literary Messenger has quite a pretty theory on this sub. ject, based upon certain statements, announced as facts, in the Census of 1840. An editor at Buffalo, and subsequently Dr. Jarvis of Dorchester, Mass., have [demolished that theory by proving that the statements announced in the Census were not facts. Those statements made Maine a very mad house, yet they contradict themselves in the following manner. In that State, saith

the Census of 1840: Total col'd inhab. Col'd. insane. Limerick.....0 Lymington1 Scarboro.....0 Poland0 Dixfield.....0 Calais

19

To make 19 crazy men out of one man, is pretty fair calculation even for "down east."-The Census is equally incorrect as to the proportion of deaf, dumb, &c. Freedom has not made us mad; it has strengthened our minds by throwing us upon our own resources, and has bound us to American Institutions with a tenacity which nothing but death can overcome.

Very gratefully yours UNE SMITH. New-York, Jan. 29, 1814.

\$200 REWARD WILL BE PAID TO PROVE THE FOLLOWING AFFIDAVIT UNTRUE-JOHN THOMSON, 313 Broomest.—Scrofula.—Important Cure confirmed. New-York, Jan. 26th, 1814. On the 8th of January, I gave my affidavit that an astonishing cure had been performed upon me by Doctor John Thomson, 313 Broome street, of a dreafful case of scrafula, salt rheum, erysipelas, scald head or leprosy, all of which it had been denominated. In said affidavit, I stated that I had been afflicted 24 years, that I had employed 10 different Paysipelas. sall rheum, erysipelas, scald head or lepressy, all of which it had been denominated. In said affidavit, I stated that I had been afflicted 42 years, that I had employed 10 different Physicians, that I had taken 40 bottles of Sand's Sarsaparilla and between 40 and 50 bottles of Bristol's Sarsaparilla. That my head had beenshaved and dressed with poultices and ointment alternately for 41 months. I also used 40 boxes of Dr. Whiting' celebrated Extract of Dancus. I also used for 3 months constantly, a strong tea drink made of Burdock, yellow dock, pricklyash and Sarsaparilla. One physician I paid \$64 after an strendance of five months; another attended me eight months, but all of no use. My head was one solid scale all over, which I had to remove every 24 hours with soap-suds, or the itching irritation or distress was intolerable. I believe I had all the compound miseries incident to erysipelas, scald head, salt rheum and scrofula. I have spared no pains or expense to cure this complaint. In 41 years I have paid between \$100 and \$500 without any benefit. It stuck to my stomach the past season, thus filling up my measure of trouble and misery to the brim. My distress was beyond my description. Almost in astate of despair, I called upon Dr. John Thomson, on the 30th of December, 1813, and he engaged to cure it by contract, and on the 8th of January, 1814, ten days after, my head was to all appearance well, and my general health better than for three years. I now renew my affidavit that those thus afflicted may know I am well. And I would say to all afflicted with scrofula, erysipelas and all eruptions of the skin, to try the means I have tested and they will nover regret it. I have seen several other persons who have been cured by Dr. Thomson, who were induced to make the trial from seeing a statement of my cure.

and by most of the principal retail druggists in New York and Brooklyn.

This is not a new medicine. It has been known for years, and its healing influences have been felt by thousands in the vicinity where it has been sold. But no effort has ever before been made to introduce it to the public at large by means of the press. It has been left to work its way sitently by its own intrinsic merits, and to depend for its celebrity upon actual experience and the wonderful cures it has effected. The extent of these, and the high and just reputation which it has thus acquired, are manifest from hundreds of testimonials, thus acquired, are manifest from hundreds of testimonials, soluntarily furnished to the proprietor by gentlemen of the medical profession and others who have tried it. It is now, for the first time, advertised in the public journals, in order that its priceless benefits may be made known, and enjoyed more widely by the afflicted who are suffering without a knowledge of its healing powers.

Colds, Coughs, Asthma, Influenza, Whooping Cough, Croup, Worms, Hemorrage (or raising of blood), and the whole class of diseases affecting the breast and lungs, tending to consumption, and other kindred diseases, are controlled by it as hy a charm. These complaints are not suiting to suit as hy a charm.

it as by a charm. These complaints are of a most insidious character. They commence with a slight cold, or with some trifling ailment, which, being at first neglected, leads to inflammation, and slowly advance step by step until the constitution gives way, and the victim is brought to their very verse of the grave.

flammation, and slowly advance step by step until the constitution gives way, and the victim is brought to theivery verge of the grave.

No person who has any regard for the inestimable blessing of health should be without this mild, pleasant, sale, and yet powerful balsam. In this climate, where changes of weather are so sudden, and their effects so injurious, it is immensely important. A timely use of it has saved and will save thousands from the pains of protracted illness, from beds of languishing, from wasted frames, debilitated constitutions, and even from death itself. The trifling sum paid for a bottle of this extraordinary curative, has often saved vast sums of money which must have been paid for medical attendance during a long course of painful sickness.

With all their wonderful and efficacious powers Dr. Houseman's German Ceugh Drops are free from every ingredient of a debilitating or dangerous nature. They are a purely vegetable compound, and may be taken with entire safety in all kinds of weather and under all circumstances. The use of this invaluable medicine has also caused great improvement in the health of persons constitutionally feeble, as its effect is to impart tone and vigor to the system, while it in no instance weakens the patient. It acts as a mild healing expectorant, and at the same time as a very gentle tonic. It is in short the HEALING BALM which restores health, strength, vigor, elasticity, and cheerfulness to the weakened frame and the desponding mind. READ WHAT SHERMAN'S LOZENGES ILAYE DONE.—Mr. DAY, boot maker, No. 20 The large treet, Brooklyn, suffered greatly for eighteen monds with emaciation, debility sickness of the stomach, loss of uppetite, shooting pains in the bowels, his stomach neglected. with emaciation, debility siekness of the stomach, loss of specifie, skooting pains in the bowels, his stomach neglected most every kind of food, except sugar. He had been attended by rarious physicians and for two months by the professor of the University, and all to no purpose.

On reading Dr. Sherman's Book descriptive of the symptoms of worms he thought they met his case; so he purchased a box of Sherman's Worm Lozenges. A few doses brought away, as he judged, about two quarts of worms, and cutivity cured him. A multitude of similar cases might be mentioned where children and adults had suffered all but death for worms, and nothing gave relief but Sherman's Lozerges.

Coughs, Colds, Asthma, Whooping Cough, and even Cosmiption, are all sooner cured by Sherman's Cough Lozerges than any other known remedy. They allay the ticking in a few seconds, and enable those afflicted with the most her assing coughs to sleep whole nights. The Rev. Dr. Danbe, Rev. Mr. Deforest, Rev. Dr. Fastmond and hundreds of the sands can attest to their happy virtues as others can to be efficacy of Sherman's Cough Lozenges. for headache, papitation, lowness of spirits, sea sickness and lassitude for boddly or mental exertions, and for the wonderful propertie of Sherman's Poor Man's Plaster, which costs but 12 ceta, and is a warrasted cure for rhoomatism and lumbago, and of woodless in the breast side back, or any mart of the bode. and is a warranted cure for rhammatism and lumbago, sain or weakness in the breast, side, back, or any part of the body.—
Ask for Sherman's Poor Man's Plaster, and see that his nane and his fac simile with directions for use are on the back. There are a great many worthless imitations hawked about and sold by unpruncipled druggists. Remember to get Sherman and Plasters and Plaste man's Lozenges and Plasters and Truss—none others, or you will be decrived. Dr. Sherman's Warehouse is 106 Nassau street. Agent-
